

KNUS KRIGSMASKINEN

CRUSH THE WAR MACHINE – STOP CHEMRING NOBEL

ABOUT

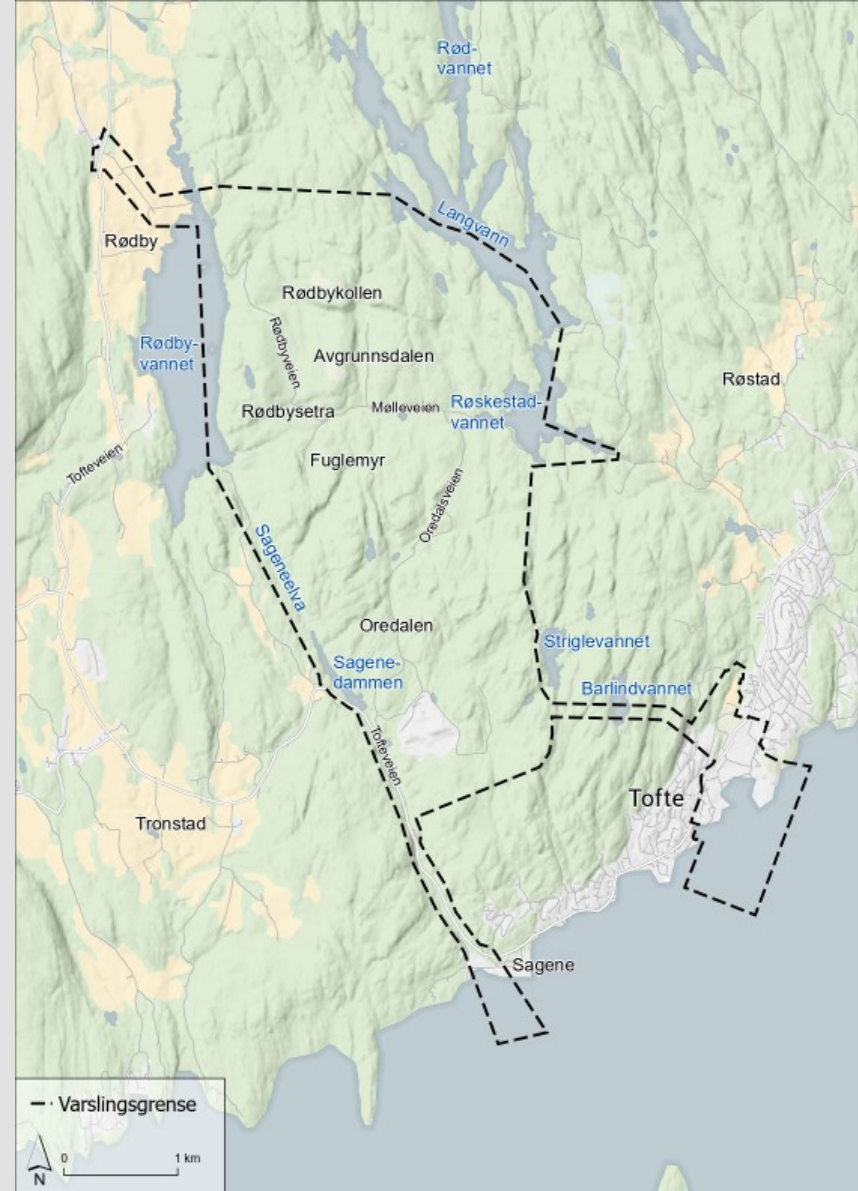

- Occupied cabin in Hurummarka near Oslo
- Chemring Nobel & Ministry of Defence want to build Europe's biggest explosive factory
- Pollution & deforestation
- Chemring Nobel produces missiles exported to "Israel"

Fra Hurum til Gaza? (Klassekampen, 2025-08-26)

AI-blemme hos kommunen: – Oi! Shit! Hæ?!

Da Asker kommune skulle vedta å kaste ut okkupanter, viste de til flere høyesterettsdommer. Men disse dommene eksisterer ikke, de var oppdiktet av AI.

OUR VISION

Stop the factory

Build autonomous community space

Restore & preserve the nature

No complicity in imperial wars

Oppose rearmament & raise awareness about militarization

AFS – Aktivt Forsvart Sone

AFS – Aktivt Forsvart Sone

Actively Defended Zone is:

- Occupation to physically block destruction
- Establishing new relationships through horizontal organizing

AFS is the norwegian version of the French ZAD (Zone à Défendre)

Example: ZAD Notre-Dame-des-Landes in France against airport – 1600 hectares preserved

Today it is becoming more common as a tactic
